

Compatible Practice Management Systems & Supported Hardware

Can I access the images from my practice management software? Yes, nearly all practice management software companies have “bridged” to Visix. The following companies have bridged to Visix:

Ablesoft	Eaglesoft**	Practice works **
AbelDent	Easy Dental	PBS Endo
Ace Dental	Exact Dental	PEB for Windows
Alphadent	EZ Dent	PEB’s XLDent **
BRS Computing	First Pacific Corporation	Perio Apprentice
Ciraden	FoxdentOffice	Perio Exec
ComputerAge	Genesis	Perio Vision
The Complete Exam	Human Touch	Primadent
Daisy	Innova	Power Practice
Datacon	Intellident	Practice Outlook
Dental Exec	Kcomp	Practice Web
Dental Office Express (DOX)	Medident	QSI
Dental PRO	Mogo	Scandent
Dental Vision/Discus	NDC	Softdent **
Dental.com	Oasys	Softech
Dentech	OCS	Suzy
DentiMax	Open Dental	Three Star
Dentisoft	Oral Surgery Exec	Time for Perio
Dentrix **	Partner	Tri-Star
Desco	PatientBase	Vantage-Med
Direct Vision	Practice-Web	Windent
DOM for Windows		

** In some cases these companies may charge a fee for their bridge. Under these circumstances Visix offers a free alternative called VisixLink, that allows Visix to access the patient name from the PMS and retrieve the image file corresponding to that specific patients’ name.

Please call Visix for the most up-to-date list of compatible bridges. It is also prudent to contact your practice management software vendor to discuss the details of the bridge and or a proposed bridge.
